PROFESSIONAL SUMMARY

Experienced Full Stack Developer with over 6 years of expertise in building robust web applications. Specializing in PHP (Laravel), Node.js, and Vue.js, with strong skills in software architecture, relational databases (MySQL, PostgreSQL), AWS, Git, Docker, Redis, and JIRA. Proficient in third-party API integration, RESTful services, system design, and microservices architecture. Dedicated to writing clean, efficient code and continuously integrating new technologies. Extensive experience in developing SaaS solutions and contributing to B2B projects.

SKILLS

Languages and

Frameworks:

- PHP, JavaScript
- Laravel, Lumen, Node.js, Express.js, NestJs
- Vue.js, React.js, Typescript
- HTML, CSS, jQuery, Bootstrap

Tools & Technologies:

- REST API development
- Applies Agile principles

Version Control: Utilizes GitHub for efficient version control, ensuring

Database Solutions:

Extensive experience with MySQL, Postgres, MongoDB and Redis for efficient and optimized data management.

CI/CD Implementation:

Proven track record in implementing Continuous Integration and Continuous Deployment processes for streamlined development workflows.

WORK HISTORY

Full Stack Developer • *Rentrax Software Inc*

Vancouver, BC • Nov 2022 to July 2024

- Revamped rental software into a (SaaS) model using Laravel and Nest.js, leading to enhanced efficiency and reduced costs. As a fullstack developer, I spearheaded the transformation, integrating diverse payment providers for increased flexibility. Utilized Vue.js for frontend development, specializing in credit card tokenization and terminal device processes.

Skills: Laravel, Lucid structure, Nest.js, Vuejs(v2&v3), AWS tools, Rest API, Mysql, Github, Jira, Payment providers

Backend Developer • *Tether Land*

Dubai, UAE • May 2021 to Nov 2022

- As a backend developer, I orchestrated the creation of a **cryptocurrency exchange** platform using Laravel and Express.js, integrating MySQL and Redis databases. I ensured the implementation of essential features for a secure user experience. Leveraging Typescript and Prisma, I developed scalable backend solutions within the Express.js framework. Additionally, To bolster system responsiveness, I incorporated event queue processes for efficient management of asynchronous tasks.

Skills: Laravel, Express.js, Typescript, Rest API, Github, Clickup, Laravel Event/Listener, Laravel Job/Queues, Mysql, Redis, GraphQL

Full Stack Developer • *Payamava*

Tehran, Tehran • May 2019 to April 2021

- Developed **multiple OTC exchange websites** using Laravel and Vue.js, Integrating with Binance, FTX, and Coinex APIs.
- Enhanced real-time functionality in the system by implementing WebSockets
- Designed an international transit system, leveraging Laravel for back-end functionality and Vue.js for front-end interfaces.
- Designed and developed a lottery website with Laravel and React.js.
- Evaluated and optimized state management in React.js components by integrating Redux.js.

- Created a Domino game platform that leverages Node.js (Express) for server-side functionality, React.js for a dynamic client-side interface, and Socket.io for seamless real-time connectivity.

Skills: Laravel, Vue.js, Express.js, React.js, Websocket, Gitlab, Rest API, MongoDB, Mysql, Cpanel & DirectAdmin environment

Web Developer • Sayna

Shiraz, Fars • May 2017 to May 2019

- Developed a comprehensive classified ads website for the building industry, leveraging Laravel for primary services and Lumen for sub-services.
- Implemented an Ad prioritization api based system using Laravel Jobs and Queues and RestApi, enhancing user experience.
- Designed automation software for Martial Arts management, employing Laravel for backend functionalities and JavaScript (jQuery) for frontend features. The software efficiently handles player registration, generates detailed reports, and presents visually informative match charts.

Skills: PDO, Laravel, Lumen, Rest API, jQuery, Laravel Jobs/Queues, Mysql, Trello

R&D Software Engineer • Irafa

Shiraz, Fars • Sep 2014 to Mar 2017

- Researched into macro-service software in the business consulting industry, specializing in the core services (Connect professionals from the world of business ownership and startup founding). Proficient in Excel, MySQL, and direct database queries. Edited educational videos, managed Joomla/WordPress sites, and designed web pages using PHP (PDO), HTML, CSS, and JavaScript.

Skills: Excel, Mysql, Joomla, Wordpress, Wunderlist

EDUCATION

B.Eng. - Software Engineering • Chamran University
Ahvaz • 2011 - 2014
